

8.02
CRAIG POLICE DEPARTMENT
Office of Chief of Police
General Order

Date Issued: May 15, 1997
Subject: District Assignments
To: All Officers

Revision Date: September 21, 2006
Reference: CACP STD

I. Policy

In order to provide better coverage of the community, the City is divided into two districts. These districts are further divided into grids. These districts and grids are utilized in reports to help analyze geographic locations where crime occurs.

II. Procedure

1. District 1 is all the area within the city limits, east of Ranney Street. District 2 is all the area within the city limits, west of Ranney Street.
2. Each officer shall be assigned to a particular patrol area within the city, and shall be responsible for patrol services and the crime within their assigned district. District assignments may be rotated. Officers shall generally stay within the boundaries of their assigned district.
3. When there are two officers working one will be assigned to District 1 and one to District 2. When three officers are on duty, the third officer will be assigned as a rove officer between districts 1 and 2. When there are four officers on duty, two will be assigned to each district.
4. When requested by the officer handling the call or stop, the closest available unit shall provide backup on radio calls and traffic stops. Once an officer no longer needs backup, the officer shall give a Code 4 or 10-4 at the location, and the backup car shall return to their assigned district.

Approved By:

Walter K. Vanatta
Chief of Police
